

Reliable grading

Guaranteed quality assurance in grade selection.

Elasticity

Guaranteed durability for working in awkward areas.

High breaking strain

Guaranteed for frequent use.

Ecological

Steel Wool and packaging are completely recyclable.

Scale of Hardness (as per F. Mohs)

The Scale of Hardness indicates in which areas TROLLULL steel wool grinds gently, smooths softly and cleans without scratching.

| Materials | Grade of Hardness | Surface selected |
|--------------------------------|-------------------|---|
| DIAMOND | 10 | <div> <div>Earthenware</div> <div>Ceramic glass</div> <div>Porcelain</div> <div>Window panes</div> <div>Enamel</div> <div>Hard metals</div> <div>Hard synthetics</div> </div> |
| SANDING PAPER | 9 | |
| SANDING FLEECE | 8 | |
| SPONGE SCOURERS | 7 | |
| | 6 | |
| GLASS PAPER | 5 | <div> <div>Wood</div> <div>Acrylic paint</div> <div>Varnish, Shellac</div> <div>Plaster boards</div> </div> |
| <div>TROLLULL STEEL WOOL</div> | | |

| | 1 | |

These robust surfaces can be cleaned and processed scratch-free with steel wool

These delicate surfaces can be smoothened and burnished with steel wool

Packaging information

TROLLULL packaging features easy-to-understand instructions. The application possibilities and the materials for which quality steel wool is used are explained within a colour-coding system and are corresponding to every single grade.

FINE 0000•000•00

See for yourself how to create perfect surfaces with TROLLULL Premium Quality Steel Wool

MEDIUM 0•1•2

See for yourself how to create perfect surfaces with TROLLULL Premium Quality Steel Wool

COARSE 3•4•5

See for yourself how to create perfect surfaces with TROLLULL Premium Quality Steel Wool

Unique Application

Polishing without scratching:

Extra fine Steel Wool fibres treat surfaces with a "razor blade" effect.

Gentle treatment:

Rather than grinding down a surface, it carefully sands down paint coatings – ensuring base coats remain undamaged.

Enhances structure of wood:

Wood's natural grain is accentuated after priming.

Glass, tiles and ceramics:

Even delicate surfaces like glass can be cleaned without scratching.
