## Scale of Hardness (as per F. Mohs)

The Scale of Hardness indicates in which areas **TROLLULL steel wool** grinds gently, smooths softly and cleans without scratching.

Materials	Grade of Hardness	Surface selected
DIAMOND	10	
SANDING PAPER	9	Earthenware
SANDING FLEECE	8	Ceramic glass
SPONGE SCOURERS	7	Porcelain
	6	Window panes
GLASS PAPER	5	Enamel
		Hard metals
		Hard synthetics
<b>TROLLULL STEEL WOOL</b>		
	3	Wood
	2	Acrylic paint
	1	Varnish, Shellac
		Plaster boards

These robust **surfaces** can be **cleaned and processed scratch-free** with steel wool

These delicate surfaces can be **smoothened and burnished** with steel wool

## Packaging information

TROLLULL packaging features easy-to-understand instructions. The application possibilities and the materials for which quality steel wool is used are explained within a colour-coding system and are corresponding to every single grade.

### FINE 0000•000•00

### MEDIUM 0•1•2

See for yourself how to create perfect surfaces with TROLLULL Premium Quality Steel Wool

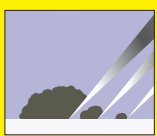

### COARSE 3•4•5

See for yourself how to create perfect surfaces with TROLLULL Premium Quality Steel Wool

## Unique Application

**Polishing without scratching:**  
Extra fine Steel Wool fibres treat surfaces with a "razor blade" effect.

**Gentle treatment:**  
Rather than grinding down a surface, it carefully sands down paint coatings – ensuring base coats remain undamaged.

**Enhances structure of wood:**  
Wood's natural grain is accentuated after priming.

**Glass, tiles and ceramics:**  
Even delicate surfaces like glass can be cleaned without scratching.
